MEMORANDUM

To: Members of the Faculty of Applied Science & Engineering

From: Yu-Ling Cheng, Acting Dean

cc: Chairs and Directors

Date: February 20, 2013

Re: Establishing the Centre for Sustainable Energy as an EDU:C and Renaming it as the Institute for Sustainable Energy

I am pleased to announce that on February 14, 2013, Faculty Council approved that the Centre for Sustainable Energy, founded in 2010 as an Extra-Departmental Unit:D within the Department of Mechanical and Industrial Engineering, be advanced as an Extra-Departmental Unit:C, and renamed the Institute for Sustainable Energy (ISE).

An EDU:C is a multidisciplinary, multi-departmental research and/or academic unit with a defined research domain in a particular area of academic work that exists to foster research and scholarly interest in the area.

The Institute for Sustainable Energy has the mandate to engage in research and scholarly work in energy, facilitate collaborative research projects with industry, and enhance the training of energy research personnel.

Professor David Sinton is Director of the Institute and Professor Aimy Bazylak is Associate Director for terms effective July 1, 2012 through June 30, 2015.

On behalf of the Faculty, we are very grateful to Professors Sinton and Bazylak for their leadership and dedication to the Institute for Sustainable Energy and the multidisciplinary research that it is undertaking.
