MEMORANDUM

To: Executive Committee of Faculty Council (November 24, 2021)
    Faculty Council (December 16, 2021)

From: Professor Julie Audet
       Chair, Engineering Graduate Education Committee (EGEC)

Date: November 8, 2021

Re: EGEC Information Update

REPORT CLASSIFICATION

This is a routine or minor policy matter that has been approved by the Engineering Graduate Education Committee on behalf of Faculty Council\(^1\). It will be considered by the Executive Committee for endorsing and forwarding to Faculty Council for information.

Minor Modification Proposal: Change to an Existing Graduate Program or Collaborative Specialization

This template should be used to bring forward all proposals for minor modifications to program or admissions requirements for existing graduate programs or collaborative specializations under the University of Toronto’s Quality Assurance Process.

Currently, Master of Engineering (MEng) students in graduate units in the departments of Chemical Engineering & Applied Chemistry, Civil & Mineral Engineering, Electrical & Computer Engineering, and Mechanical & Industrial Engineering can earn an Emphasis in Analytics by successfully completing four courses from the two lists presented in Appendix A. At least one course must be from the list of core courses. The other courses must be selected from the list of elective courses. In addition, students must complete a pre-requisite course before taking any of the core courses.

Herein, we propose the following changes:

1) Expand the list of eligible core courses by adding MIE1626H: *Data Science Methods and Quantitative Analysis* (pending approval). This will create a fifth choice in the list of core courses for the emphasis in Analytics. There will be an exclusion for MIE1624H: *Introduction to Data Science and Analytics* which is a core course as well in the emphasis. MIE1626 can be seen as a more technically rigorous (i.e., statistically grounded) introduction to data science than the less technical and mostly experimental MIE1624. This explains the exclusion with MIE1624.

2) Update the list of elective courses in the emphasis as new courses have been created since the launch of the emphasis almost 3 years ago.

### 2 Effective Date of Change

September 1, 2022 for adding MIE1626 to the list of core courses

### 3 Academic Rationale

Additional core course choices are beneficial to the large number of students interested in earning this emphasis since the courses would be scheduled at different times and offered in different terms. This will make it easier for students to avoid scheduling conflicts and course waitlists. In this proposal, the list of electives courses is also updated to reflect new offerings in this area.

### 4 Impact on Students

See above.

### 5 Consultation

MIE (Industrial Engineering AI group including Scott Sanner).

### 6 Resources

Template developed by the Office of the Vice-Provost, Academic Programs; updated on March 6, 2018.
Appendix A: Calendar Entry (Revised)

**Emphasis: Analytics (MEng only)**

To be admitted to the emphasis in Analytics, MEng students must first successfully complete a **prerequisite course APS 1070H (0.5 full-course equivalent [FCE])**.

Subsequently, to earn the emphasis, students must successfully complete **four additional half courses (2.0 FCEs)** from the list of core courses or elective courses. These must include at least one core course; the remaining courses must be selected from the list of elective courses.

Students must have completed the prerequisite course APS 1070H before taking any of the core courses.

**Prerequisite Course**

APS 1070H *Foundations of Data Analytics and Machine Learning*

**Core Courses**

CHE 1147H *Data Mining in Engineering*

MIE 1624H *Introduction to Data Science and Analytics* (exclusion MIE 1626H)

MIE 1626H *Data Science Methods and Quantitative Analysis* (pending approval) (exclusion: MIE 1624H)

MSE 1065H *Application of Artificial Intelligence in Materials Design* (exclusion MSE1063H)

**Elective Courses**

CHE 507H, CHE 1108H, CHE 1148H, CHE 1434H

CIV 1504H, CIV 1506H, CIV 1507H, CIV 1532H, CIV 1538H

ECE 537H, ECE 1504H (exclusions: CSC 411H, CSC 2515H, ECE 421H, ECE 521H, ECE 1513H), ECE 1505H, ECE 1510H, ECE 1657H, ECE 1778H, ECE 1779H
Appendix A: Calendar Entry (Current SGS Calendar Version)

**Emphasis: Analytics (MEng only)**

To be admitted to the emphasis in Analytics, MEng students must first successfully complete a prerequisite course APS 1070H (0.5 full-course equivalent [FCE]).

Subsequently, to earn the emphasis, students must successfully complete four additional half courses (2.0 FCEs) from the list of core courses or elective courses. These must include at least one core course; the remaining courses must be selected from the list of elective courses.

Students must have completed the prerequisite course APS 1070H before taking any of the core courses.

**Prerequisite Course**

APS 1070H *Foundations of Data Analytics and Machine Learning*

**Core Courses**

*CHE 1147H Data Mining in Engineering*

MIE 1624H *Introduction to Data Science and Analytics*

MSE 1065H *Application of Artificial Intelligence in Materials Design* (exclusion MSE1063H)

**Elective Courses**

- CHE 507H, CHE 1108H, CHE 1148H, CHE 1434H
- CIV 1504H, CIV 1506H, CIV 1507H, CIV 1532H, CIV 1538H
- ECE 537H, ECE 1504H (exclusions: CSC 411H, CSC 2515H, ECE 421H, ECE 521H, ECE 1513H), ECE 1505H, ECE 1510H, ECE 1657H, ECE 1778H, ECE 1779H
