

**UNIVERSITY OF TORONTO**  
**FACULTY OF APPLIED SCIENCE & ENGINEERING**

**Report No: 3262**

**To: Faculty Council**

**From: Professor Christopher Damaren**  
**Chair, Engineering Graduate Education and Research Committee**

**Date: September 21, 2010**

**Item: Report of the Engineering Graduate Education and Research Committee**

---

**Courses Approved**

New

APS1013H (MIE)	Applying Innovation in Engineering
BME1460H	Quantitative Fluorescence Microscopy: Theory and Application of Live Cell Imaging
ECE1778H	Creativity & Programming of Mobile Devices
DMI0626H (MIE)	Advanced Topics in Finite Element Analysis
DMI0828H (MIE)	Lean Manufacturing - Principles, Applications and Implementations
MIE1129H	Nuclear Engineering I: Reactor Physics and the Nuclear Fuel Cycle
MIE1299H	Special Topics in Fluid Mechanics
MIE1413H	Statistical Models in Empirical Research
MIE1699H	Special Topics in Operations Research
MIE1741H	Multiphysics Materials Modeling
